

BAA-0026

Purpose/ Application	Tillage
Sealing system	SKF Mudblock seal
Shaft design	Shaft with inch female thread
Flange design	Flange with attachment bolt holes
Housing material	Machined steel
Corrosion protection	Zinc-coated housing

Dimensions

d_1	34.9	mm
d	39	mm
B	82	mm
B_1	67	mm
D	168	mm
G_S	3/4-16 UNF	
N	13.5	mm
J	133.35	mm
I_1	40	mm
s	3.9	mm

Application data

Minimum disc diameter	min.	300	mm
Maximum disc diameter	max.	800	mm
Recommended minimum temperature	min.	-20	°C
Recommended maximum temperature	max.	50	°C
Recommended lower temperature limit for storage (static)		-50	°C

Calculation data

Basic dynamic load rating	C	52.7	kN
Basic static load rating	C_0	45	kN

Mass

Mass	4.36	kg
Mounting information		
Recommended tightening torque for disc screws	100	N·m
Recommended tightening torque for self-locking shaft nut	475	N·m
