Timken Part Number 6408, Deep Groove Ball Bearings (6000, 6200, 6300, 6400)

Deep groove ball bearings are available in a variety of sizes and are the most popular of the rolling bearings. This type of bearing supports radial load and a small degree of axial load in both directions simultaneously. Deep groove ball bearings are popular due to their versatility, affordability, and capability to run at high speeds. Most bearings in the 6000 series up to 60mm bore can be made available in stainless steel (AISI 440C material) upon request. Contact a
